APPROVAL

OF STATE ENGINEER

DATE Jan. 17, 1997

This is to certify that I have examined the foregoing application,

and do hereby grant the same, subject to the following limitations and

This permit is issued subject to all existing rights on the source

conditions: and is limited to what the well will produce but not to exceed

0.10 c.f.s. If well is flowing, a valve must be installed and maintained

to prevent waste. A meter must be installed in the discharge pipe line,

near the point of diversion, and accurate measurements must be kept of

water placed to beneficial use. It is understood that this right must

allow for a reasonable lowering of the static water level at permittees

well due to other ground water development in the area. This source is

located within an area designated by the State Engineer pursuant to

Section 4 of the 1939 Ground-Water Act (Chap. 178, Stats. 1939 as amended);

therefore the State retains the right to regulate the use of the water

herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount

which can be applied to beneficial use, and not to exceed 0.10

cubic feet per second.

Actual construction work shall begin on or before January 8, 1954

Proof of commencement of work shall be filed before February 8, 1954

Work must be prosecuted with reasonable diligence and be completed on or

before January 8, 1955

Proof of completion of work shall be filed before February 8, 1955

Application of water to beneficial use shall be made on or before

January 8, 1956

Proof of the application of water to beneficial

use must be filed with State Engineer on or before February 8, 1956
